The screenshot shows a web browser window displaying the Mendeley Desktop download page for Windows. The page title is "Downloading Mendeley Desktop for Windows...". Below the title, it states "Your download should start automatically in a few seconds. If it doesn't, restart the download." There is a link "Need a different version?".

Under the heading "1. Download Mendeley Desktop", there is a thumbnail of the download progress bar showing "Mendeley-Desktop 232 MB" and a "Save Mendeley Desktop to your hard drive." button.

A security warning dialog box is open, titled "Відкрити файл - попередження системи безпеки". It asks "Відкрити цей файл?" and shows details for the file "Mendeley-Desktop-1.17.13-win32 (1).exe". The publisher is listed as "MENDELEY LIMITED". There are buttons for "Відкрити" (Open) and "Скасувати" (Cancel).

At the bottom of the page, there is a navigation bar with "Mendeley Supports Responsible Sharing" and "Learn how you can share". Below that is a footer with links for Products, Support, About Us, and Downloads.

The footer includes the following links:

- Products:** Reference Management, Research Network, Datasets, Careers, Funding, Premium Packages, Mendeley Institutional Edition
- Support:** Help Guides, Videos & Tutorials, Support, Release Notes
- About Us:** About Us, Work at Mendeley, Contact Us, Blog, Advisor Community, Developers, Privacy Matters
- Downloads:** Reference Manager, Web Importer, Citation Plug-in

There are also buttons for "GET IT ON Google Play" and "Download on the App Store".

## Abstract:

Does music make you smarter? Music listening and music lessons have been claimed to confer intellectual advantages. Any association between music and intellectual functioning would be notable only if the benefits apply reliably to nonmusical abilities and if music is unique in producing the effects. The available evidence indicates that music listening leads to enhanced performance on a variety of cognitive tests, but that such effects are short-term and stem from the impact of music on arousal level and mood, which, in turn, affect cognitive performance; experiences other than music listening have similar effects. Music lessons in childhood tell a different story. They are associated with small but general and long-lasting intellectual benefits that cannot be attributed to obvious confounding variables such as family income and parents' education. The mechanisms underlying this...
