Протягом трьох місяців (лютий, березень, квітень) 2020 р. в НаУКМА відбудуватиметься тестовий доступ до журналів Wiley. Оператор доступу - ДНТБ України (<https://dntb.gov.ua/>).

Цей тренінг не є офіційним тренінгом компанії Wiley, має консультаційний характер та проводиться Науковою Бібліотекою НаУКМА (<https://library.ukma.edu.ua/>) для студентів та дослідників Національного університету «Києво-Могилянська академія» (<https://www.ukma.edu.ua/>).

Wiley Online Library

<https://www.onlinelibrary.wiley.com/>

Wiley Online Library (далі - WOL) - Збірник онлайн-ресурсів, що охоплюють природні, соціальні та гуманітарні науки.

В рамках тестового доступу для користувачів буде доступна найбільша колекція журналів Wiley, а це понад 1 500 назв сучасних **журналів**. Доступними будуть також архіви журналів за понад 20 років – з 1997 року до сьогодні. За тематичним спрямуванням журнали охоплюють всі предметні напрямки сучасної науки.

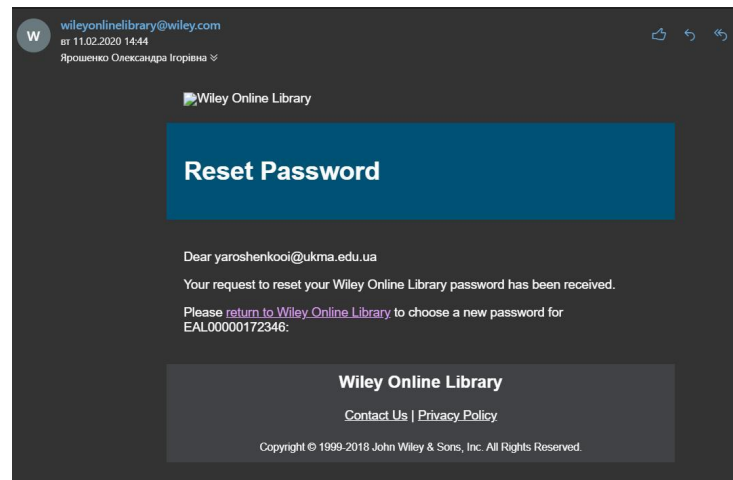

Вхід адміністратора

Контактна особа (адміністратор) від установи, що отримала тестовий доступ до Wiley, повинна увійти на платформу через **Login/Register**. Обираємо Login. Email контактної особи вже зареєстрований на платформі, потрібно змінити пароль.

The screenshot shows the Wiley Online Library homepage. A red box highlights the URL in the browser's address bar: **Заходимо на сайт Wiley Online Library**. Another red box highlights the search bar with the text: **Пошук за назвою чи ключовими словами**. A red arrow points from this box to the search input field. The search bar contains the text: "Search publications, articles, keywords, etc." and a magnifying glass icon. Below the search bar is a link for "Advanced Search". The main banner features the text: "Accelerating research discovery to shape a better future" and "Today's research, tomorrow's innovation". Below the banner, there are three statistics: "1,600+ Journals", "200+ Reference Works", and "21,000+ Online Books". The "Resources" section includes four columns: "Researchers" (Register online, Discover tools and manage alerts, Learn about how to access), "Librarians" (Manage your account, View products and solutions, Find resources and support), "Societies" (Publish with Wiley, Explore our resource library, Learn about topics and trends), and "Authors" (Submit a paper, Track your article, Learn about Open Access). The "Subjects" section is partially visible at the bottom, showing "Agriculture, Aquaculture & Food Science".

Abstract

Розширений пошук (Advanced Search)

дозволяє шукати по назві, автору, ключовим словам, анотації, афіліації, фінансуючій організації, або будь-де (**Anywhere**) - слово чи фразу з використанням логічних операторів та спеціальних символів

Логічні оператори та замінні символи

Можна використовувати булеві оператори **AND** (+ або **&**), **OR** і **NOT** (-) у полі пошуку. Ці оператори повинні бути введені в У ВЕРХНЬОМУ РЕГІСТРІ для того, щоб вони працювали.

Якщо введено більше одного терміна і не вказано жодних операторів, пошук автоматично ставить між термінами AND. Для пошуку фрази використовуємо **лапки** **“”**.

Знак запитання (?) у пошуковому запиті замінює один символ (**wom?n = women or woman**).

Астериск (*) замінює **нуль** або **> 1** символів. Наприклад, **plant* = plant, plants, planting**. Так само, **an*mia = anemia & anaemia**.

Замінні символи **НЕ МОЖНА** використовувати на початку пошукового запиту (***tension**) або під час пошуку фраз у лапках (**“tobacco smok*”**).

Пошук авторів

Імена авторів можна шукати за повними іменами або просто ініціалами. Імена авторів беруться у **лапки “”**, щоб знайти конкретне ім'я та його варіанти.

Наприклад, **«John Smith»** знаходить статті ***John Smith, John K Smith та John Colby-Smith,***

тоді як **“J Smith”** знаходить статті ***J Smith, JR Smith, John Smith and Julie Smith.***

Abstract

Recent developments in our understanding of molecular genetics have transformed screening and diagnostic practices for Lynch syndrome. The current standard involves universal tumour analysis of resected colorectal cancer (and ideally polypectomy) specimens using immunohistochemistry and molecular techniques. Patients with abnormal immunohistochemical findings are subsequently referred for definitive mutational testing. This review relates the molecular pathogenesis of Lynch syndrome to current immunohistochemistry-based screening strategies and discusses the interpretation and clinical implications of screening results.

Accepted for publication 3 November 2019.

Biographies

Dr Nicole Landi, PhD, is an Associate Professor of Psychological Sciences at the University of Connecticut and the Director of EEG Research at Haskins Laboratories. Her research focuses on a language and reading development in healthy children and in children with complex neurodevelopmental disorders, including dyslexia, poor comprehension, developmental language disorder, and autism. She uses multiple cognitive neuroscience approaches including ERP, MRI, and imaging genetic approaches to explore the underlying etiology of typical and atypical language and reading processes.

Ms. Meaghan Perdue, MS, is a doctoral student at the University of Connecticut in the department of Psychological Sciences and a student researcher at Haskins Laboratories. Her research focuses on better understanding the cognitive and neurobiological bases of reading development and dyslexia.

Applied Psychology: Health and Well-Being (AP:HWB) is one of the two official journals of the International Association of Applied Psychology (IAAP), the oldest and largest association of scholars and practitioners of the discipline of psychology.

Applied Psychology: Health and Well-Being is a peer-reviewed outlet for the scholarly dissemination of research findings and practical applications in the domains of applied psychology. Research findings are encouraged from all areas of applied psychology, including health, counseling, educational, sport, cross-cultural and environmental psychology. The mission of the journal is to provide readers with outstanding articles that present the latest data and best practices in the application of psychology to the promotion of well-being and optimal functioning.

Applied Psychology: Health and Well-Being will publish empirical work, theoretical papers, model intervention programs, case studies, debates, and reviews. Of particular interest are intervention studies (e.g., randomized controlled trials) and meta-analytic reviews.
