
4 Бази OVID:

- BIOSIS Previews
- Biotechnology Abstract
- Global Health
- Health and Psychosocial Instruments

http://ovidsp.ovid.com/autologin.html

Підготувала: Тетяна Чорна, наукова бібліотека НаУКМА, chorna@ukma.kiev.ua
Презентація створена у межах організації тестового доступу до ресурсу.

Wolters Kluwer Health | Ovid

Бази даних

- **BIOSIS Previews** - охоплює всі галузі наук про життя і забезпечує повне охоплення біологічних і біомедичних досліджень опублікованих у світі. Включає загальну біологію, ботаніку, зоологію та мікробіологію, а також ветеринарну медицину, біотехнології, дослідження навколишнього середовища та сільського господарства.
- **Biotechnology Abstract** - ресурс літератури з біотехнологій та патентної інформації. Включає всі аспекти біотехнологій, промислове використання мікроорганізмів, ферментів. Близько 1200 основних наукових публікацій, в тому числі матеріалів конференцій та патентів.
- **Global Health** - об'єднує ресурси двох всесвітньо відомих баз даних - Public Health та Tropical Medicine (PHTM). Разом вони представляють собою унікальний ресурс, який забезпечує глибоке тематичне охоплення інформації, що стосується здоров'я людини та інфекційних захворювань.
- **Health and Psychosocial Instruments** - забезпечує швидкий доступ до інструментів оцінювання інформації (наприклад, анкети, графіки інтерв'ю, списки, кодовані схеми/посібники, рейтинги, тести і т.п.) у сфері охорони здоров'я, психології, організаційної поведінки та бібліотечно-інформаційних наук. Ресурс буде корисний дослідникам, викладачам, студентам, адміністраторам і фахівцям з оцінювання, для того щоб визначити заходи, необхідні для проведення наукових досліджень, заявки на гранти і т.п.

Database guide last updated December 23, 2008

Copyright 2009, Wolters Kluwer Health

BIOSIS Previews ® encompasses the entire field of life sciences and provides comprehensive coverage of the world's published biological and biomedical research. This includes traditional areas of biology, such as botany, zoology and microbiology, as well as experimental, clinical and veterinary medicine, biotechnology, environmental studies, and agriculture. Interdisciplinary fields such as biochemistry, biophysics and bioengineering are also included. More than 6,500 serials are monitored for inclusion. In addition to full-length research articles from serials, and database also cover national and international meetings, reviews, technical letters and notes, meeting reports (from 1989 to present), software (1992 to present), and books.

The BIOSIS Previews ® (1969 to present) database includes the contents of BIOSIS print publications:

Biological Abstracts® (1969 to present)
Biological Abstracts/RRM® (1980 to present)

From July 1976 to December 1993, 100% of articles cited in Biological Abstracts have abstracts. These citations make up 50% of the BIOSIS Previews database for that time period. From January 1994 to present, only 75% of articles cited in Biological Abstracts will have abstracts in BIOSIS Previews. From 1985 to present, all main book records in Biological Abstracts/RRM have abstracts in BIOSIS Previews.

The BIOSIS Previews ® database is updated monthly

Controlled Vocabulary

The Controlled Vocabulary (Authority File) contains lists of the controlled vocabulary terms used in *BIOSIS Previews*, *Biological Abstracts* and *Biological Abstracts/RRM* databases from 1993 forward. In most implementations of the databases, controlled vocabulary terms are accompanied by information including Broader and Narrower Terms, Related Terms, Used For Terms, and Scope Notes.

Segments and Years of Coverage

Name	*Years of Coverage*
BIOSIS Previews	1969 to Present
BIOSIS Previews Archives	1926 - 1968 -- see the BIOSIS Previews® Archive Database Guide for archive details.

The BIOSIS segmentation changes each calendar year, due to special considerations for this database. Contact Ovid Support for segmentation information for your jumpstarts.

The limit of databases that you can select for a multifile search session is based upon database segments rather than actual databases. The Ovid multifile segment limit is set at 120 to avoid impacting your search sessions. Until 2010, your BIOSIS subscription will not amount to more than **35 segments**.

This database is updated online weekly.
