Children Are Hostages in the Donbas War

Bloody steps of DNR and LNR

It is just one of many tragedies, which happened in the Donbas area after Russian fighters and mercenaries unleashed the war in eastern Ukraine. In addition, DNR terrorists:

- ...force to flee from homeland
- ...recruit children into their squads
- ...hide behind children, using them as human shields
- ...destroy the schools
- ...abduct and traffic children to Russia

On July 30, 2014, 9 children were injured as a result of a mine explosion in the village of Berestova near the town of Artemivsk in the Donetsk region. Their health condition is critical; they will remain physically disabled for the rest of their lives.

Осторожно! Мины!

According to the UN data, at least 23 children were killed during the Russian aggression in the east of Ukraine.
