

IV Міжнародна науково-практична конференція  
«Наукова комунікація в цифрову епоху»

30-31 березня 2016 р.

Підготовка інтернет-сторінки наукового  
видання з метою отримання цифрових  
ідентифікаторів DOI,  
процес реєстрації індексів, підготовка  
пристатейних списків літератури  
і їх реєстрація

### Procedure of Forecasting Operational and Extremal State of Critical Systems of the Rocket Technique Under Repeated Thermo-Force Loading

**Section:** Scientific and Technical Innovative Projects of National Academy of Sciences of Ukraine

**Language:** Ukrainian

**Abstract:** The mathematical model for investigation of the thermoelastoplastic stress-strain state and the strength of the rocket technique systems under the repeated starting is proposed. The thermal conductivity equation and constitutive equations of thermoplasticity for the repeated elastic-plastic deformation processes of isotropic materials along small-curvature paths, the strength and low-cyclic fatigue criteria, numerical methods for solving the boundary-value heat

# Вимоги агентства CrossRef до веб-ресурсу наукового періодичного видання:

- Англomовний інтерфейс
- ISSN, зазначений на головній сторінці журналу
- Вихідна загальна інформація про журнал
- Перехід на кожне число журналу з головної сторінки

**Сторінка окремого числа журналу повинна виглядати як зміст, і містити:**

- DOI числа журналу
- Перехід на домашню сторінку окремої статті

**Сторінка анотації статті повинна містити:**

- DOI цієї статті
- Бібліографічну інформацію
- Механізм доступу до повного тексту

# Вимоги агентства CrossRef до веб-ресурсу книжкового видання:

- Англomовний інтерфейс
- Наявність головної сторінки видавництва
- Вихід на сторінку книжкового видання

# Елементи сторінки книжкового видання:

## Обов'язкові:

- Серія: назва серії, том, ISBN, дата публікації (рік), видавець, цифровий ідентифікатор DOI для серії
- Книга: назва книги, дата публікації (рік), ISBN, видавець, цифровий ідентифікатор DOI для книги
- Глава: цифровий ідентифікатор DOI для глави

## Рекомендовані:

- Прізвища авторів і назви установ, де вони працюють
- Редактор, анотація (резюме) до книги
- Ключові слова
- Кількість сторінок (для книг), сторінки (для глав)

3. Завантаження
4. Перевірка журналу завантажень

# Підготовка і активація списків літератури

*Приклад оформлення:*

Clow GD, McKay CP, Simmons Jr. GM, and Wharton RA, Jr. 1988.

Climatological observations and predicted sublimation rates at Lake Hoare, Antarctica. Journal of Climate 1:715-728

*Необхідно:*

- Уникати використання недопустимих символів (лапки, тире, похилі)
- Не допускати наявності кириличних символів

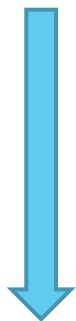

*Бажано:*

- Розділяти окремі пункти літератури пустим рядком
- При подачі списку літератури з кількох посилань форматувати останні в алфавітному порядку або у вигляді нумерованого списку
- Уникати пустих рядків всередині окремого пункту

**!** **Обов'язково перевіряйте точність відгуку, натиснувши на посилання із індексом DOI , що повертається після запити**

### Simple Text Query Form

This form allows individuals to retrieve Crossref Digital Object Identifiers (DOIs) for non-commercial use. Please contact us ( [info@crossref.org](mailto:info@crossref.org)) if you represent an organization that needs to retrieve Crossref DOIs in quantity.

**Important Notice: Simple Text Query users will be required to use a verified email address starting on May 5, 2010. You may sign up for a free account here.**

We are taking this action because a number of users are querying this service in very high volumes. The Simple Text Query is not an appropriate tool for high volume operations and monthly usage limits of 1000 references will be put into effect (intended to be a limit on an individual or the organization represented by an individual). Please contact Crossref ( [info@crossref.org](mailto:info@crossref.org)) to inquire about options appropriate for volumes of use above these limits.

#### How to use this form

This form allows you to retrieve Digital Object Identifiers (DOIs) for journal articles, books, and chapters by simply cutting and pasting the reference list into the box below. You may use the form with any reference style, although the tool works most reliably if references are formatted in a standard style such as shown in this example:

Clow GD, McKay CP, Simmons Jr. GM, and Wharton RA, Jr. 1988. Climatological observations and predicted sublimation rates at Lake Hoare, Antarctica. Journal of Climate 1:715-728.

To test the interface, simply cut & paste this reference!

Please separate individual references by a blank line. For best results, there should be no line breaks within an individual reference. When submitting multiple references they must be in alphabetical order or presented as a numbered list. For editorial purposes, to check the accuracy of a reference click on the DOI link that is returned with the reference.

Enter the email address you registered for use of Crossref services. If you have not registered your email address, click [here](#).

Registered email:

Enter text in the box below:

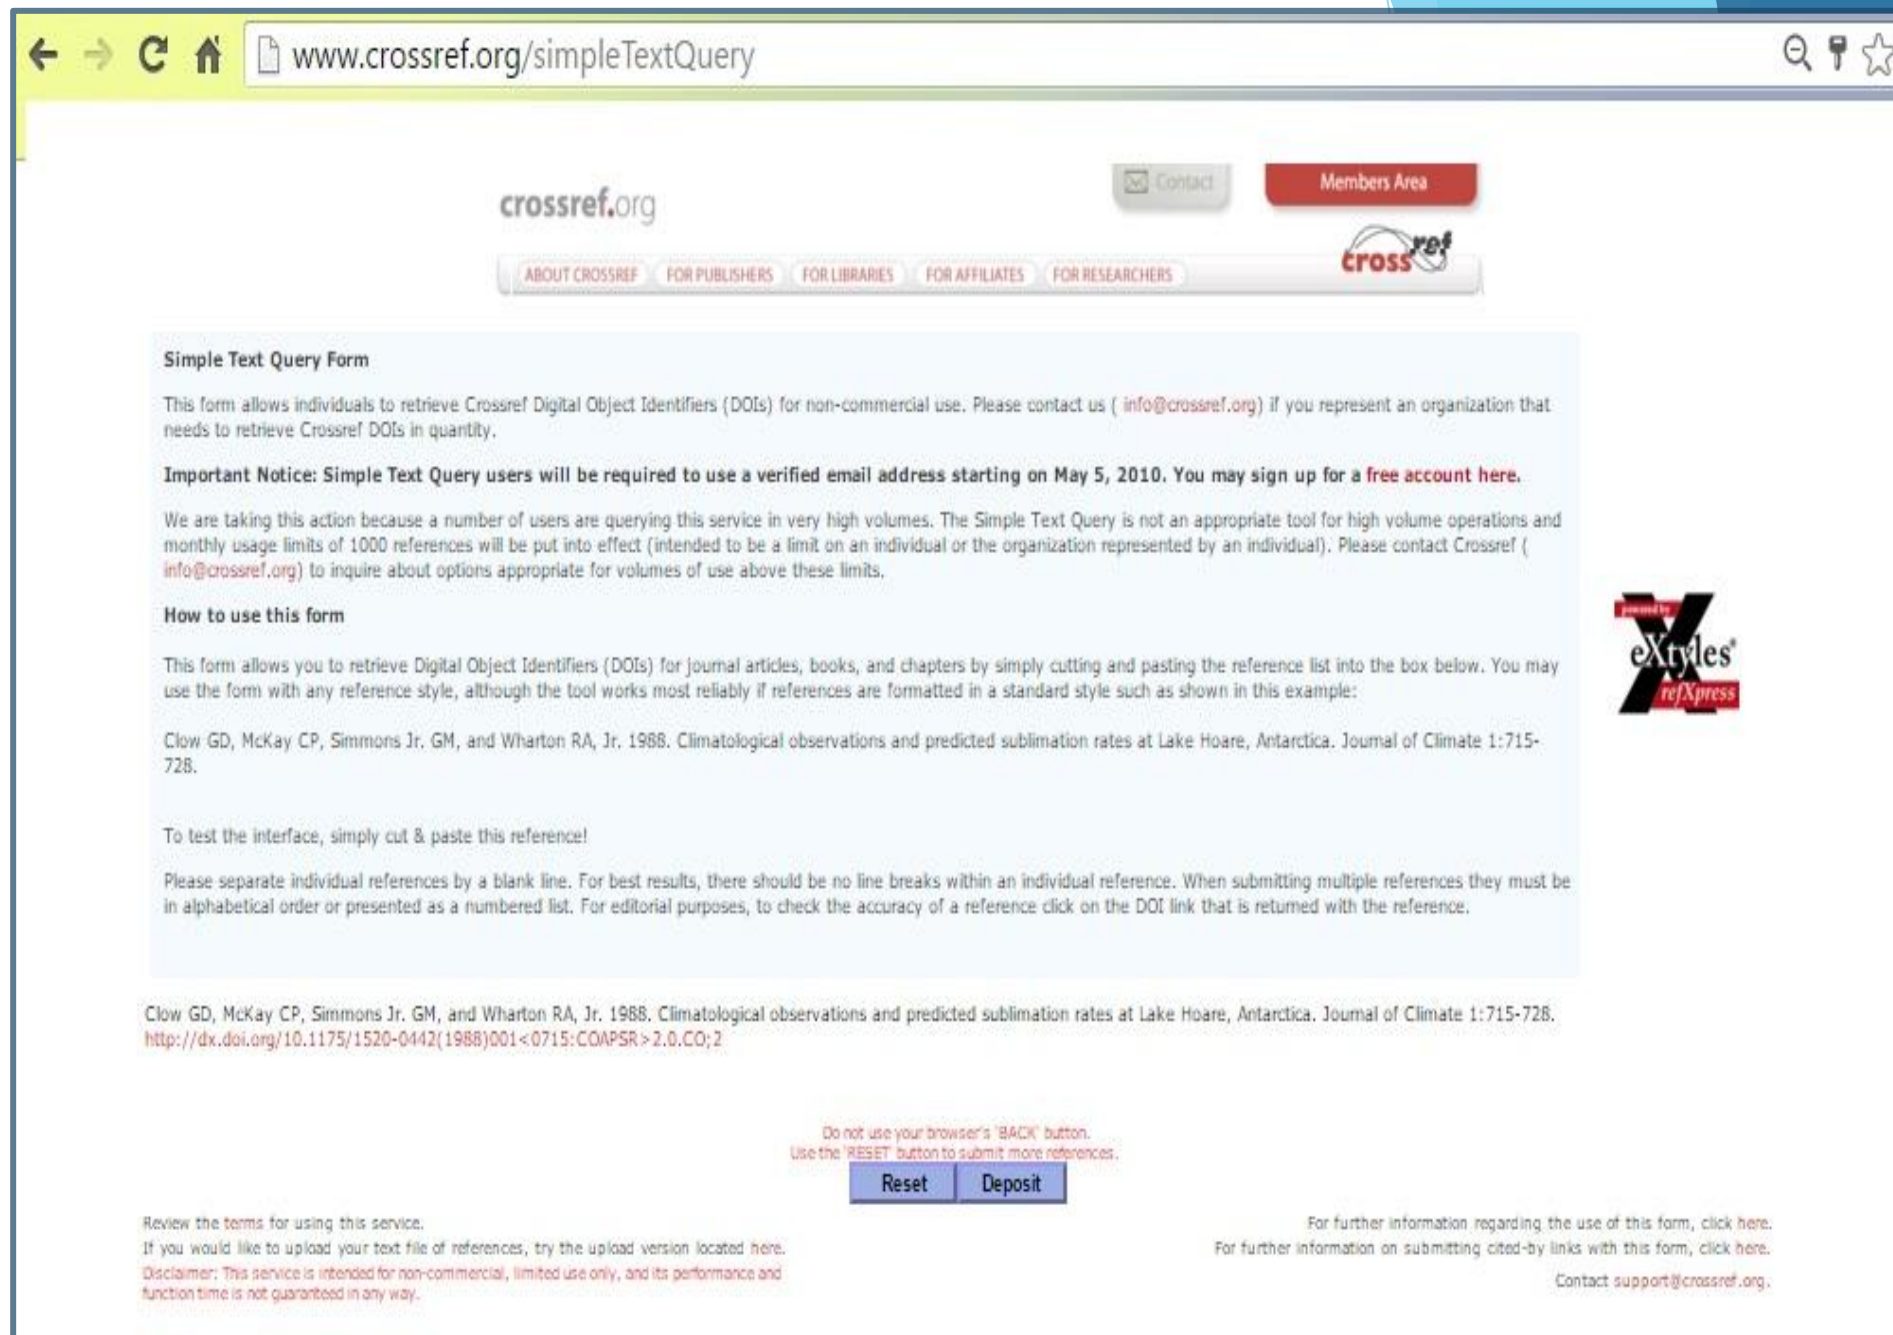

Include PubMed IDs in results.  List all possible DOIs per reference.

[Submit](#)

Review the terms for using this service.  
If you would like to upload your text file of references, try the upload version located [here](#).  
Disclaimer: This service is intended for non-commercial, limited use only, and its performance and function time is not guaranteed in any way.

The screenshot shows the Crossref Simple Text Query page. At the top, there is a navigation bar with the Crossref logo and links for 'ABOUT CROSSREF', 'FOR PUBLISHERS', 'FOR LIBRARIES', 'FOR AFFILIATES', and 'FOR RESEARCHERS'. There are also buttons for 'Contact' and 'Members Area'. The main content area is titled 'Simple Text Query Form' and contains the following text:

This form allows individuals to retrieve Crossref Digital Object Identifiers (DOIs) for non-commercial use. Please contact us ( [info@crossref.org](mailto:info@crossref.org)) if you represent an organization that needs to retrieve Crossref DOIs in quantity.

**Important Notice: Simple Text Query users will be required to use a verified email address starting on May 5, 2010. You may sign up for a free account here.**
